1972 LEGISLATIVE INTENTSpecial Programs

Transit Services

The Council intends that \$127,000 within the appropriation for Special Programs be used to support contractual transit services to suburban King County through June 30, 1972. Of the total amount, a maximum of \$90,000 may be funded from general Current Expense Fund revenues and the remaining \$37,000 is to be funded from contributions of suburban King County cities to support the transit program. The \$37,000 increase in Special Programs for suburban cities' contributions is reflected in the appropriation for Special Programs in Ordinance No. 1169.

Civil Defense

The Council intends that funds received from the Civil Defense Personnel and Administration Reimbursement Program be used to fund the operation of the Emergency Operations Center when the commitments made in the agreement for King County's first year of participation in the program have been fulfilled. Agreements for future year's participation in the Personnel and Administrative Reimbursement Program should be drawn with this intent in mind.

Inter-County River Improvement

Funds in the amount of \$19,396 are provided in Special Programs to increase King County support to Inter-County River Improvement to the \$41,000 as agreed to by the Pierce County Commissioners and representatives of the King County Council. A new contract between Pierce and King Counties for Inter-County River Improvement should be negotiated during 1972.
